

RESPONDERSTRONG™

Provided by ResponderStrong this resource of responder Focused Mental Health Providers Known to ResponderStrong:

***The providers included on this list self-identify as working with responders. Colorado POST or ResponderStrong is not currently endorsing any providers although a formal endorsement process is in development. Until that is in place, this is intended to serve as a clearinghouse/easy access point for those looking for resources. Clinicians are required to hold state licensure. Current licensure status can be verified by searching for the state board of licensure for the state in which the clinician practices.**
